-- And For All Your Gardening Needs

YOUR HOME CAN BE A *Beauty Spot* for A LOT LESS THAN YOU THINK ---

The beautification of your home grounds need not be an expensive venture for you. Even the planting of a shade tree, a flowering crabtree, or a few shrubs will amaze you with the beauty and comfort they will add to your home. If you wish to put in a complete planting, it need not be a burden financially because the planting can be planned so that a portion is planted each season over a number of years.

A well landscaped home not only makes it more enjoyable and appreciated, but the general value of the property is increased. A few years ago a nation-wide survey was made of real estate agents. They were asked to give their opinion as to how much more a properly planted home was worth than the same home would be that was not properly planted. Their answer was amazing. The average of all real estate agents polled was — 13½ %. Imagine, a house that would sell for \$15,000.00 was found to bring, on an average, \$17,000 if it had nicely landscaped grounds. And we can assure you that your home can be properly landscaped for just a very small portion of the increase in value the planting will bring.

But —

— if you would have these advantages, if you want this increase in value of your home, you must select the proper trees and shrubs and plant them in the proper places. You must use healthy, certified plants — preferably trees and shrubs grown as close as possible to where they are going to be planted! If you do not feel qualified to make the proper selection and placement, if you don't know nursery stock — then know your nurseryman. Buy from a nursery that grows its own stock and knows from experience what to recommend for you in your location. There is far too much to know about the nursery business to expect a grocer, or a variety store operator to be a nurseryman in addition to his own business. We at Andrews Nursery have been in the business all our life. We specialize in growing — here at Faribault — the very best in healthy, acclimated trees and shrubs of the kinds that have proven, through tests, to be the best for growing in this area.

Flowering Crabs mean **SPRING!**

ALMEY—Fiery-crimson flowers, brightest of all the Flowering Crabs. Each bloom as big as a silver dollar! Tiny, scarlet fruits cling to tree throughout winter. 4-5 ft. \$2.95; 5-6 ft. whip \$1.95. Ask about hedge grade.

BECHTEL'S, KLEHM'S IMPROVED—Double, pink flowers with about 20 petals resemble miniature roses. Very beautiful! 4-5 ft. \$2.95.

HOPA—Blood-red buds are followed by a mass of fragrant, deep rose colored blossoms. Big 5-6 ft. \$3.25.

RADIANT—New, 1958 introduction of the University of Minnesota. A blaze of radiant-pink bloom in the spring followed in fall with loads of cardinal-red small fruits that cling to tree throughout winter. Very shapely tree — compact and husky. 4-5 ft. \$3.95.

SARGENTI ROSEA—Ideal for small yards or in border plantings. Grows only 5 to 6 ft. tall. Lovely pink bloom. 2-4 ft. \$1.50

STRATHMORE—New! A pyramidal flowering crab that resembles a Lombardy Poplar in outline. Dark pink blooms. Leaves come out bright red and deepen to rich maroon. 3-4 ft. \$2.50; 2-3 ft. \$1.50.

TANNERS—Pure, snow-white blooms on compact, shapely tree. Striking used with Almey or Radiant. 2-3 ft. \$1.50.

VAN ESELTINE—A veritable bouquet. Buds are a rich red while open blooms are a pinkish-white giving tree a two-tone effect. Flowers are semi-double. 3-5 ft. \$2.50; 5-6 ft. whip \$1.95.

Selected SHADE TREES for the Modern Home

ASH, GREEN—(Height 60 ft.) Narrow, upright tree. Very useful for lawn and boulevard plantings especially where it is dry. 8-10 ft. \$3.95; 6-8 ft. \$2.95.

BIRCH, CUT LEAF WEEPING—Graceful weeping form of the ever popular White Birch. 5-6 ft. \$4.95.

BIRCH, WHITE—The white bark and graceful growth habit make this one of our most popular lawn trees. 6-8 ft. \$4.50; 5-6 ft. \$3.50.

ELM, AMERICAN—(Height 60-70 ft.) The widely admired native tree that is used so much for boulevard plantings. 6-8 ft. \$3.50.

ELM, GRAFTED—(Height 60-70 ft.) This is a grafted form of the regular American Elm. It is distinguished by its symmetrical form and rich foliage. 8-10 ft. \$5.95

LINDEN, AMERICAN—(Height 75 ft.) A beautiful specimen tree with round, compact top. The large, heart-shaped leaves give heavy shade. 6-8 ft. \$4.95.

LOCUST, MORaine—(Height 50 ft.) This new, sensational, FAST GROWING tree is the most sought after shade tree in America today. Fast growing—but LONG LIVED. For new homes without shade—the MORaine LOCUST is the tree to plant. Leaves turn a brilliant yellow in autumn. Beautiful, clean, seedless, hardy. Will grow most any place. (P. P. 836) 5-6 ft. whips \$5.00; 2 for \$9.75.

MAPLE, CRIMSON KING—(Height 40-50 ft.) This beautiful ornamental is a form of the Schwedler Maple that was selected in Europe for its brilliant foliage. Leaves

come out in spring a brilliant flaming crimson and deepen during the summer to a rich maroon. Leaves never show any green. (P.P. 735) 6-8 ft. Br. \$9.95; 7-8 ft. whip \$6.95; 6-7 ft. whip \$5.95; 5-6 ft. whip \$4.95.

MAPLE, HARD or SUGAR—(Height 60 ft.) One of our handsomest shade trees. The bright green leaves turn to brilliant autumn shades of yellow, orange and red. Excellent boulevard tree. 6-8 ft. \$4.95.

MAPLE, SCHWEDLER—(Height 40-50 ft.) Leaves come out in spring a brilliant red and slowly turn to a bronzy-green, its summer color. Hardy, and valued as an ornamental specimen. 6-8 ft. Br. \$6.75; 7-8 ft. whip \$4.65.

MAPLE, SOFT—Still a well liked tree where speed of growth is important. 8-10 ft. \$3.50.

MOUNTAIN ASH—(Height 30 ft.) An attractive ornamental and small shade tree, especially in late summer and fall when it is covered with clusters of orange-red berries. 6-8 ft. \$4.25.

POPLAR, BOLLEANA—(Height 40-50 ft., Spread 6-8 ft.) A fast growing tree with the upright, Lombardy Poplar type growth. Leaves are glossy-green above and silvery-white beneath. Valuable for screen plantings. 6-8 ft. \$2.50.

POPLAR, LOMBARDY—(Height 50-ft., Spread 5-6 ft.) Very fast growing, upright tree, planted widely for screens, etc. 8-10 ft. \$1.65; 6-8 ft. \$1.25; 5-6 ft. 85c.

WILLOW, NIOBE—(Height 40 ft.) This fast growing tree is the best and hardiest of the Weeping Willows. Don't plant too close to house. 5-6 ft. \$1.85.

FLOWERING SHRUBS for EVERY LOCATION

Shrubs That Prefer Sunny Locations

Size Code: (L)—Low (M)—Medium (T)—Tall

- ALMOND, PINK FLOWERING**—(M) Masses of fluffy, pink blooms crowd the branches in early spring. 2-3 ft. \$1.50.
- BARBERRY, RED LEAF**—(L) Deep red leaves that last throughout the summer. Mature height is 2 or 3 feet. 12-18 in. 95c.
- BLUE MIST SPIREA (Caryopteris)**—(L) Dwarf (2-3 ft.) fall-blooming shrub smothered in misty-blue blooms from August 'till frost. Attracts humming birds. 12-18 in. 95c.
- CRANBERRY, DWARF**—(L) One of the very best dwarf shrubs. Grows only 2-2½ ft. tall. Forms solid, compact ball of most attractive maple-like leaves. 12-15 in. \$2.50.
- CRANBERRY, Highbush**—(T) Richly colored foliage. White blossoms are followed by bright red fruit in September. Tolerates wet soil. Use in shrub border. 2-3 ft. \$1.50; 18-24 in. \$1.25.
- DEUTZIA, LEMOINE**—(L) A neat bushy shrub that carries sparkling white blooms. Excellent for foundation plantings. 18-24 in. \$1.25.
- HONEYSUCKLE, CLAVEY'S DWARF**—(L) A small compact shrub with gray-green foliage. One of the best dwarf shrubs. Bright yellow flowers borne in May. 15-18 in. \$1.00.
- HONEYSUCKLE, ZABELI**—(T) Reddest flowers of all the honeysuckles. A beautiful grower. 3-4 ft. \$1.35; 2-3 ft. \$1.00.
- HYDRANGEA, P.G.**—(L) Huge white blooms that turn coppery-pink in late summer. Very popular 18-24 in. \$1.00.
- MOCKORANGE, GOLDEN**—(L) The bright yellow leaves of the shrub make it very popular. A mass of sweet-scented, white blooms in May and June. Seldom gets more than 4 ft. tall. 18-24 in. \$2.25; 12-18 in. \$1.95.
- MOCKORANGE, VIRGINAL**—(L) Upright shrub smothered in orange-like, semi-double white blossoms. Very popular. 2-3 ft. \$1.00.
- NANKING CHERRY**—(M) Large, compact shrub. Blooms early spring and is a "snowball of bloom". Small red cherries produced in July. 2-3 ft. \$1.25.
- POTENTILLA, WOODLAND GOLD**—(L) Clear, bright yellow flowers. Plant is small (2-3 ft.) and very compact. Excellent foundation shrub. 18-24 in. \$1.95; 15-18 in. \$1.50.
- RED FLASH**—(M) Red leaves all summer long. Beautiful when used with Golden Mockorange or Russian Olive. 2-3 ft. \$1.95.
- ROSE TREE OF CHINA**—(M) Brilliant double pink blooms smother the plant in the spring. 3-4 ft. \$2.25.
- SPIREA, ANTHONY WATERER**—(L) Seldom grows larger than 2 ft. Bright red flowers cloak the entire plant in June-July. 12-18 in. \$1.00.
- SPIREA, FROEBELI**—(L) Similar to Spirea A. W. but grows a little larger. Leaves turn a delightful plum-red in fall. 2-3 ft. \$1.35; 18-24 in. 95c.
- SPIREA, SNOWGARLAND**—(L) Masses of white blooms and lacy, light green leaves distinguish this spirea. Bushier than Bridal Wreath. 2-3 ft. \$1.35.
- TAMARIX, SUMMERGLOW**—(T) Best of the Tamarix family. Feathery gray-green foliage. Soft pink flowers are borne in fluffy clusters in mid-July. 2-3 ft. \$1.25.
- WAYFARING BUSH (Viburnum Lantana)**—(T) Foliage is very attractive—a silvery-green turning red in fall. A good border shrub. 3-4 ft. \$1.50; 2-3 ft. \$1.25.

Shrubs That Are Equally Good In Sun or Shade

- ARROWWOOD (Viburnum Dentatum)**—(T) Dark green leaves turn bright red in fall. Small berries are valued by song birds. Very tolerant of shade. 2-3 ft. \$1.50; 18-24 in. \$1.25.
- BURNING BUSH (Euonymus alatus)**—(M) We consider this to be among the 5 best shrubs for Minnesota. Compact shrub with good foliage and form. Leaves are a glossy-green, but turn to a brilliant-scarlet in fall. Branches have corky wings that add to its winter value. 12-18 in. \$1.95.

DWARF BURNING BUSH—(L) Dwarf form of this excellent shrub. 12-18 in. \$1.95.

CORALBERRY—(L) A delightful dwarf shrub, ideal for foundation plantings. Dainty pink flowers appearing in mid-July are followed by small attractive red berries. 2-3 ft. 95c.

COTONEASTER—(M) Deep, glossy-green leaves that turn bright red in fall. Widely used in foundation plantings. 2-3 ft. \$1.25.

CURRENT, ALPINE—(L) A very useful landscape shrub—one of our "Top 5". Compact, upright habit of growth, but small, thereby being useful in foundation planting. Top height—about 4 ft. Very tolerant of shade. 2-3 ft. \$1.95; 18-24 in. \$1.45.

DOGWOOD BAILEYI—(M) Red stems make this a most showy shrub during winter months. One of best for shady spots. 4-5 ft. \$1.50; 3-4 ft. \$1.25.

DOGWOOD, PAGODA—(T) Very attractive shrub best suited for background plantings. Horizontally spreading branches. 3-4 ft. \$1.25; 2-3 ft. \$1.00.

DOGWOOD, VARIEGATED-LEAF—(M) Green leaves, but with creamy-white edging. Goes beautifully with other shrubs and the Japanese Yew. 12-18 in. \$1.25.

HYDRANGEA, HILLS OF SNOW—(L) Huge white blooms resemble snowballs. Very tolerant of shade and moist soil. 2-3 ft. \$1.45.

NINEBARK, DWARF—(L) Compact, dwarf shrub grows anywhere. Rich green foliage. 2-3 ft. \$1.00.

SPIREA, V. H. (Bridal Wreath)—(M) This favorite seems to grow and bloom most any place. 3-4 ft. \$1.00; 2-3 ft. 85c.

VIBURNUM MOLLE—(T) An excellent background shrub, with dark green leaves coloring brilliantly in autumn. 2-3 ft. \$1.50.

Glamorous LILACS

FRENCH LILACS have been developed into a wide variety of colors. They are long-lived, do not spread, and become more beautiful year after year. **PRICES:** 2-3 ft. \$2.25; 3 for \$5.95.

ALPHONSE LAVALLE—Double, violet blooms.

CHARLES JOLY—A beautiful, double, dark red.

KATHERINE HAVEMEYER—Huge spikes of lively, double-pink blooms.

LUDWIG SPAETH—A rich purple. Very popular.

MME. LEMOINE—Double snow-white blooms borne in profusion.

PRES. GREVY—Double, light blue. Husky grower.

CHINESE LILAC—An improved variety often called the "Red Persian lilac". An excellent plant that branches heavily from the ground up. Soft reddish-pink blooms. Very desirable for shrub borders and hedges. 3-4 ft. \$1.50, 3 for \$3.95; 2-3 ft. \$1.25, 3 for \$2.95.

VILLOSA LILAC—Called the "Summer Lilac" as it blooms after all other lilacs are through. Blooms are of a light pink. Plant is husky, a fast grower, and branches well from ground up. Excellent as specimen shrub, for screens, and windbreak work. 2-3 ft. \$1.25; 3 for \$2.95. (See page 5 for windbreak sizes).

VINES

CLEMATIS—This outstanding plant is the most widely planted vine. A favorite with everyone.

Only 98c each.

ERNEST MARKHAM—A gorgeous, glowing-red. Very well liked.

JACKMANI—The most popular of them all. Huge, purple flowers borne by the hundreds.

LADY BETTY BALFOUR—A striking rich, velvety-purple with a white center. Outstanding.

VEILLARD—Medium size blooms of soft pink.

HONEYSUCKLE, GOLDFLAME—Masses of large, fragrant flame-coral trumpets lined with creamy-gold. Blooms from May until frost. **Select vines 95c.**

IVY, BOSTON—A very popular wall-covering vine that does well in full sun. Needs no support. Leaves color up beautifully in the fall. **No 1 vines 95c.**

CHOOSE *for* YOUR GARDEN

from the **WORLD'S FINEST ROSES**

Sub-Zero ROSES

PRICE: \$1.85 each; 3 for \$5.25

Sub-Zero Roses are easy to grow—and are the hardiest of all Hybrid Tea Roses. This exciting type brings to you a **new race of Hybrid Tea Roses** that rate with the best in form and color, but, being bred back to hardy strains, Sub-Zero roses possess more hardiness. Greater hardiness means longer-lived plants and more pleasure for you.

CEDRIC ADAMS—An excellent red rose named in honor of the Upper Midwest's popular news commentator. (P.R.R.).

CURLY PINK—One of the very best of all roses! Almost immune to disease this husky grower has been known to carry over 50 huge **two-tone pink** roses at one time. If you have never grown roses—start with Curly Pink. It is inspiring! (P. P. 842).

LILY PONS—A glowing **white** with a soft lemon-yellow shading in the center. One of our most popular Sub-Zeros. (P. P. 420).

ORANGE RUFFELS—A shade of **orange** never before found in a rose. It blends from a lively orange to a saffron-yellow. Blooms freely. (P. P. 1124).

QUEEN O' THE LAKES—Our largest selling red rose. This lovely Sub-Zero has completely double, long lasting blooms and flowers freely all summer long. (P. P. 1003).

TIP TOES—Large flowers of a delightful mixture of **red, orange and pink** tints. A good husky grower that will grow 4 feet tall. (P. P. 849).

V FOR VICTORY—Large, very double, **clear yellow**, unfading blooms distinguish this variety. (P. P. 543).

HYBRID TEA ROSES

RED

CHARLOTTE ARMSTRONG—Long, tapering buds and magnificent open flowers of carmine-red to cerise. One of the eight highest rated roses of all time, as rated by American Rose Society. (P. P. 455). \$2.25 each; 3 for \$6.00.

CHRYSLER IMPERIAL—An All-America winner, this deep, rich red rose with huge 5 inch blooms is thought by many to be the greatest of all the red roses. (P. P. 1167). \$2.50 each; 3 for \$6.60.

CRIMSON GLORY—An old timer, but still one of the best. \$1.35 each; 3 for \$3.25.

We are proud to be able to offer to our customers the world's finest roses! From the hundreds and hundreds of varieties, we carefully select the best ones for this region.

We are also glad to be able to provide ideal storage conditions of roses—thus being able to offer our customers the very best roses in the very best of condition. Roses do not store easily—make sure your roses have been carefully stored right up to the day you get them in moisture and temperature controlled nursery storages.

NEW YORKER—Brilliant red blooms up to 6½ inches across. One of the best reds in this class. (P. P. 823). \$2.25 each; 3 for \$6.00.

PRESIDENT EISENHOWER—A great new red rose you'll not want to be without. In our gardens, this was one of the 2 best red roses. (P. P. 1217). \$2.25 each; 3 for \$6.00.

PINK

HELEN TRAUBEL—Developed in California, this gorgeous long stemmed beauty grows and blooms far better in Minnesota than in California. Color — a luminous apricot-pink. (P. P. 1028). \$2.75 each; 3 for \$7.20.

JUNO—Huge, sparkling pink blooms. Highly regarded by Minneapolis Rose Garden as one of the hardiest Hybrid Tea Roses. (P.P. 895) \$2.50 each; 3 for \$6.60.

SHOW GIRL—This rose has the longest, most beautiful buds we've ever seen. A deep, deep, rich pink that holds from the bud stage way through the full flower stage. (P.P. 464) \$2.25 each; 3 for \$6.00.

TIFFANY—The long, pointed buds are a beautiful phlox pink shaded a golden yellow at the base. Winner of Gold Certificate in International competition. (P.P. 1304) \$2.50 each; 3 for \$6.60.

THE DOCTOR—Color similar to Show Girl, although form isn't as good. \$1.35 each; 3 for \$3.25.

YELLOW

GOLDEN SCEPTER—Long, tapered, golden buds unfurl into bright, unfading yellow blooms. Rated in the "Top Ten" yellow roses by the American Rose Society. (P.P. 910) \$2.00 each; 3 for \$5.25.

PEACE—Tied with Golden Wings as highest rated of all roses. No one should be without this "Queen of Rose-dom". Huge 5 to 6 inch canary yellow to gold blooms edged with apple blossom pink. (P.P. 591) \$2.50 each; 3 for \$6.60.

SUTTER'S GOLD—Perfect long, yellow buds shot with orange, and big golden flowers with more rich fragrance than any other yellow rose. (P.P. 885) \$2.25 each; 3 for 6.00.

ECLIPSE—Long, streamlined buds, of rich golden yellow. \$1.35 each; 3 for \$3.25.

WHITE

WHITE KNIGHT—All America Rose for 1958. First White Hybrid Tea ever accorded this honor. Truly spectacular. Satiny-white blossoms borne on long stems ideal for cutting. (P.A.F.) \$3.00 each; 3 for \$7.95.

WHITE SWAN—Long pointed buds open slowly to pure, snow-white blooms. (P.P. 1115) \$2.25 each; 3 for \$6.00.

MCGREDY'S IVORY—Large, cream white and fragrant. \$1.35 each; 3 for \$3.25.

ORANGE

MOJAVE—All-America winner for 1954, this gorgeous rose is getting more popular every year. The long tapered buds of a glowing, sunset-orange put this rose in a class by itself. (P.P. 1176) \$2.75 each; 3 for \$7.20.

Glorious Everblooming FLORIBUNDA ROSES

- CIRCUS**—This 1956 All-America winner is sure to please you. A multi-color—ranging from red and yellow in the bud to a buff orange and finally a red when fully open. (P.P. 1382) \$2.50 each; 3 for \$6.60.
- FASHION**—Oriental-red buds open to a coral blended with gold. A favorite with everyone here at the nursery. (P.P. 789) \$2.00 each; 3 for \$5.25.
- FROLIC**—The brightest, clearest pink we've seen in a Floribunda. Will grow a good 2 feet tall and is almost continually in bloom. (P.P. 1179) \$2.00 each; 3 for \$5.25.
- GOLD CUP**—1958 All-America Winner! Lovely golden-yellow that doesn't fade. The outstanding yellow Floribunda. (P.A.F.) \$2.50 each; 3 for \$6.75.
- IRENE OF DENMARK**—Buds of dainty "sweetheart" form, are a clean, frosty white. (P.P. 889) \$1.75 each; 3 for \$4.65.
- KING BOREAS**—Golden yellow buds that are long lasting. Hardy and vigorous. (P.R.R.) \$1.85 each; 3 for \$5.25.
- PINOCCHIO**—Salmon-pink buds open to clear pink blooms. Not new, but still very popular. (P.P. 484) \$1.75 each; 3 for \$4.65.
- REDCAP**—This is the brightest, liveliest red we have ever seen in any rose. It literally shines! An outstanding rose. (P.P. 1292) \$2.00 each; 3 for \$5.25.
- RED PINOCCHIO**—One of the very best. Buds are a rich carmine taking on a velvety hue as they open. (P.P. 812) \$1.75 each; 3 for \$4.65.
- VOGUE**—A glowing cherry-coral color. A favorite of ours—we think you'll prize it, too. Spicy fragrance. (P.P. 926) \$2.00; 3 for \$5.25.
- WHITE BOUQUET**—1957 All-America winner. Lovely, 4-5 inch gardenia like blooms with a sweet, spicy fragrance. (P.P. 1415) \$2.50 each; 3 for \$6.60.

Farmers! Save FEED, FUEL

—and lots of back breaking shoveling with an Andrews Planned Farmstead Shelterbelt.

Farmers who have an ANDREWS PLANNED farmstead shelterbelt tell us they wouldn't sell it for 10 times what it cost. More beef, milk, and eggs are produced, too, when your feed lots and barns are protected from the wind. Farmstead shelterbelts are not really an expense, but an investment that will make your life more pleasant and your stock more productive. Use our FREE shelterbelt planning service.

The New GRANDIFLORA ROSES

Grandiflora is an entirely new type of rose! A cross between Hybrid Tea and Floribunda roses, it combines the large, long-lasting blooms of the Hybrid Teas with the immense number of the Floribundas. Flowers borne in clusters, but with long stems adequate for cutting. Rugged growers—will get 3 to 4 feet tall.

- BUCCANEER**—A beautiful, clear, unfading yellow with loads of huge blooms. (P.P. 1119) \$2.50 each; 3 for \$6.60.
- CARROUSEL**—Huge, glowing, deep-red blooms persist regardless of weather. Tall, husky, disease resistant. (P.P. 1066) \$2.00 each; 3 for \$5.25.
- JUNE BRIDE**—The only white Grandiflora. Large, snow-white blooms borne in long stemmed clusters. (P.A. F.) \$2.50 each; 3 for \$6.75.
- QUEEN ELIZABETH**—First of the new Grandifloras to win All-America Award. One of the loveliest shades of pink we've ever seen—a blending of soft carmine pink and dawn rose. Must be classed with the greatest roses now being grown. (P.P. 1259) \$2.50 each; 3 for \$6.60.

Super Hardy RUGOSA ROSES

For extreme locations where other roses will not do well, or in place of an ordinary flowering shrub, plant these Super-hardy roses—they WILL NOT fail! They require NO winter cover.

PRICES: \$1.45 each; 3 for \$3.75; 12 for \$13.80.

- AMELIE GRAVEREAUX**—Rich carmine, double blooms borne on long stems. The most Hybrid Tea-like of the Rugosas.
- AUSTRIAN COPPER**—A charming single rose, brilliant orange-red inside and yellow outside.
- F. J. GROOTENDORST**—Small, carnation-like blooms of a bright cherry-red are borne freely in clusters. Plant has upright habit of growth and is widely used as a hedge.
- HANSA**—Large, bright crimson blooms are carried in delightful profusion. Largest plant of this group.

Climbing ROSES

- BLAZE**—The most popular, everblooming red climber. Plant is buried under thousands of scarlet blooms. \$1.25 each; 3 for \$3.15.
- BLOSSOMTIME**—This shimmering-pink climber has flowers of Hybrid Tea form. Blooms profusely all season. (P.P. 1240) \$2.50 each; 3 for \$6.60.
- GOLDEN SHOWERS**—1957 All-America winner. Blooms from June 'till late fall. Long pointed buds of daffodil-yellow and it's almost thornless. (P.A.F.) \$2.75 each; 3 for \$7.20.
- HIGH NOON**—A clear bright yellow which remains rich and unfading until the last petal drops. Blooms all summer long. (P.P. 704) \$2.50 each; 3 for \$6.60.
- WHITE DAWN**—Developed by University of Minnesota. Blooms all summer long. The snow-white blooms resemble gardenias from a distance. \$1.50 each; 3 for \$3.75.

Hardy HEDGES

A living hedge is not only more attractive than a fence, but only a fraction of the cost. To establish the property line or to serve as a barrier, nothing equals a beautiful green hedge, either trimmed or growing in its natural form. Any of the hedges can be kept at almost any height desired. See list of shrubs for descriptions.

APPLES

The King of Fruits is still the most popular with the young set. One of the healthiest fruits, the Apple is just about the easiest to grow. Through the efforts of the Minnesota Fruit Breeding Farm, you can now plant hardy varieties of apples that, for quality, are second to none grown anywhere in the nation. They're GOOD, and they cost so little when you grow them yourself.

PRICES: 5-6 ft. \$1.95 each; 5 for \$8.75, except as noted.

*** Starred varieties developed and introduced by the University of Minnesota.

SUMMER APPLES

BEACON *** A beautiful all-red apple, ripe around State Fair time, good for eating and cooking.

DWARF BEACON — \$3.75 each.

ORIOLE *** Very large, excellent quality for eating.

FALL APPLES

LAKELAND *** Very similar to Wealthy—but it is an annual bearer. It never fails to bear a good crop of large, solid red apples.

WEALTHY — An old favorite. Excellent fall apple for sauce and pies.

WINTER APPLES

FIRESIDE *** Sweet type eating apple which we consider far superior to Red Delicious. Flesh remains crisp and juicy longer and has more character.

RED FIRESIDE — Same as Fireside, except it has better color. The fruit is a solid, over-all red with the same sweet, zesty flavor. \$3.00 each.

HARALSON *** We think Haralson is the best cooking apple grown—bar none! Absolutely TOPS for pies and excellent for all kinds of cooking. Hard, crisp and juicy.

DWARF HARALSON — \$3.75 each.

NORTHWESTERN GREENING — Well known winter cooking apple. Liked by many for pies.

PRAIRIE SPY *** The perfect “dual purpose” apple. Very good for eating and better than average for cooking.

CRAB APPLES

CHESTNUT *** A very tasty crab for eating, pickling and sauce. Keeps a full month after picking.

WHITNEY — Still the most popular crab apple. Fine for eating and pickling, but more perishable than Chestnut.

FRUITS FIT FOR A KING (or a Princess) CAN BE GROWN at HOME

Fresh fruits are expensive, we all know that. In late fall and winter, Apples usually sell for from \$3.50 to \$8.50 per bushel (wholesale) to grocers in Minneapolis. But—for the price of ½ bushel of Apples—or even less—you can buy the best Apple tree available—one that will bear bushels and bushels of Apples every year for any years to come. This is why we say: “**Money does grow on trees.**” Because even the best tree costs so little, it pays to buy only Northern Grown trees that are “built” to live and bear in Minnesota.

The same huge savings can be made by growing your own Raspberries, Strawberries, Cherries, Plums and other fruits. Fresh fruit is one of the best foods for children, and it costs so little to give them all they want when you grow it yourself.

PLUMS

PIPESTONE *** Picked ripe from the tree, these huge, juicy red plums will beat anything you ever bought at the store. 5-6 ft. \$1.95; 4-5 ft. \$1.75; 3-4 ft. \$1.50.

SUPERIOR *** Huge and sweet. It peels like a peach. Tree smaller than Pipestone, perhaps better suited where space is limited. 5-6 ft. \$1.95; 4-5 ft. \$1.75.

SOUTH DAKOTA — Wonderful for eating fresh, and a very good pollinizer for Pipestone and Superior. 3-5 ft. \$1.50; 2-3 ft. \$1.00.

TOKA — Best of all for jam, and a good pollinizer for Pipestone and Superior. 5-6 ft. \$1.95; 4-5 ft. \$1.75.

MT. ROYAL BLUE PLUM — Considered by many to be the highest quality plum grown for canning purposes. A must for every home orchard. Self-fertile. 4-5 ft. \$2.50.

STANLEY PRUNE — You'll not be able to tell Stanley from the shipped in Italian Prune. Excellent for sauce and jam. Tree shapely and long-lived. 5-6 ft. \$2.15.

PIE CHERRIES

Minnesota can now raise the finest Pie Cherries in the entire country. Our new varieties actually exceed in quality and color the Pie Cherries grown in Wisconsin, Michigan and other cherry growing areas. These trees are self-fertile, so will fruit even if planted alone.

METEOR *** Outstanding quality. Large, juicy Cherries ripening in mid-season. As tree size is somewhat larger than Northstar, we recommend Meteor for farm orchards. 4-5 ft. \$2.95.

NORTHSTAR *** The juicy, dark-red fruits of Northstar make an unbelievably good cherry pie. Dwarf tree size makes Northstar excellent for the city lot. 3-4 ft. \$2.45.

PEARS

Are you thirsty for a pear? Yes, pears can be grown in Minnesota—and just as easily as apples. Below are listed three of the best. (Note: Parker and Patten are not self-fertile and should be planted together to insure a set of fruit.)

PARKER *** This juicy, high quality pear introduced by the University of Minnesota is excellent for eating fresh and for sauce. 3-4 ft. \$1.35; 3-5 ft. whip \$1.00.

PATTEN — Resembles a Bartlett—has very good quality for both eating and sauce. Tree is a husky, upright grower. 4-5 ft. \$1.75; 4-6 ft. whip \$1.35.

TOPPER — The most amazing pear we've ever seen. Found as a seedling growing in St. Paul. Tree has proved to be hardy and vigorous. Appears to be self-fertile, meaning it can be planted alone and still set fruit. Fruit is large, juicy, and of excellent quality. Plant Topper this year and you'll be amazed how soon you'll have loads of the tastiest pears you've ever seen. 3-4 ft. \$2.50; 4-6 ft. whip \$2.25; 3-4 ft. whip \$1.50.

CHERRY-PLUM HYBRIDS

SAPALTA—Large, juicy and meaty. Purple flesh—wonderful for canning and eating fresh. 5-6 ft. \$1.85; 4-5 ft. \$1.75.

COMPASS—Excellent pollinizer for Sapalta. 4-5 ft. \$1.75.

HANSEN'S BUSH CHERRY—Dwarf. Good for preserves, and an excellent pollinizer for Sapalta. 2-3 ft. 89c.

CURRENTS — GOOSEBERRIES

PIXWELL GOOSEBERRY—For a good old gooseberry pie, you just can't beat Pixwell. Easiest to pick of any gooseberry we know. 2 yr. Heavy Plants \$1.00 each; 3 for \$2.65.

RED LAKE CURRANT—A product of the University of Minnesota, Red Lake is the best Red Currant being grown today. 2 yr. Heavy Plants 75c each; 3 for \$1.95.

GRAPES

It is awfully nice to be able to step out and pick a big, plump bunch of sweet, vine-ripened grapes in your own back yard. Plant several this year.

	Each	3 For
BETA —Hardy, blue. Best for jelly and jam	50c	\$1.35
CACO —Best red grape	65c	1.75
CONCORD —Well known sweet, blue grape	50c	1.35
VAN BUREN —New. Best sweet, blue grape	65c	1.75

STRAWBERRIES

Nothing tastes better than sweet, delicious, home grown strawberries picked "flavor fresh" from your own garden—and frozen strawberries are just as good. With strawberries selling for \$6.00 to \$8.00 per crate, it is smart, indeed, to grow your own. Strawberries are very easy to grow. They'll pay for themselves, and make you money, with the first crop they bear. With everbearing strawberries this is within 90 days of the time you plant them. Equal to citrus fruits in vitamin C content, children, especially, should have all the strawberries they want. They're easy to grow, so plant plenty this spring.

The Friendly Evergreens

Ornamental evergreens have no equal for year around beauty. There is no finer foundation planting than a judicious mixture of the proper kinds of evergreens and flowering shrubs. A modern planting calls for both.

Evergreens are easy to plant, easy to care for and become more beautiful and majestic year after year as they continue to grow on your grounds.

During the spring planting season, a large number of Faribault grown, freshly dug evergreens are on display at the Andrews Garden Center for your selection. Choose your own tree and take it with you. No waiting. There is a wide variety of the different types to choose from.

PYRAMIDAL TYPES—This type includes Pyramidal Arborvitae and Upright types of Junipers, and Yews.

SPREADING TYPES—This includes the well known and well liked Pfitzer and Savin Junipers, and the Spreading Yew.

GLOBE TYPES—In this class falls the famous Mugho Pine and globe forms of Arborvitae.

TALL GROWING TYPES—This group includes the Spruce—both Colorado Blue and Black Hills—as well as the tall growing Pines.
